

MIXED METHODS WORKSHOP

LAMIS ABDELAATY

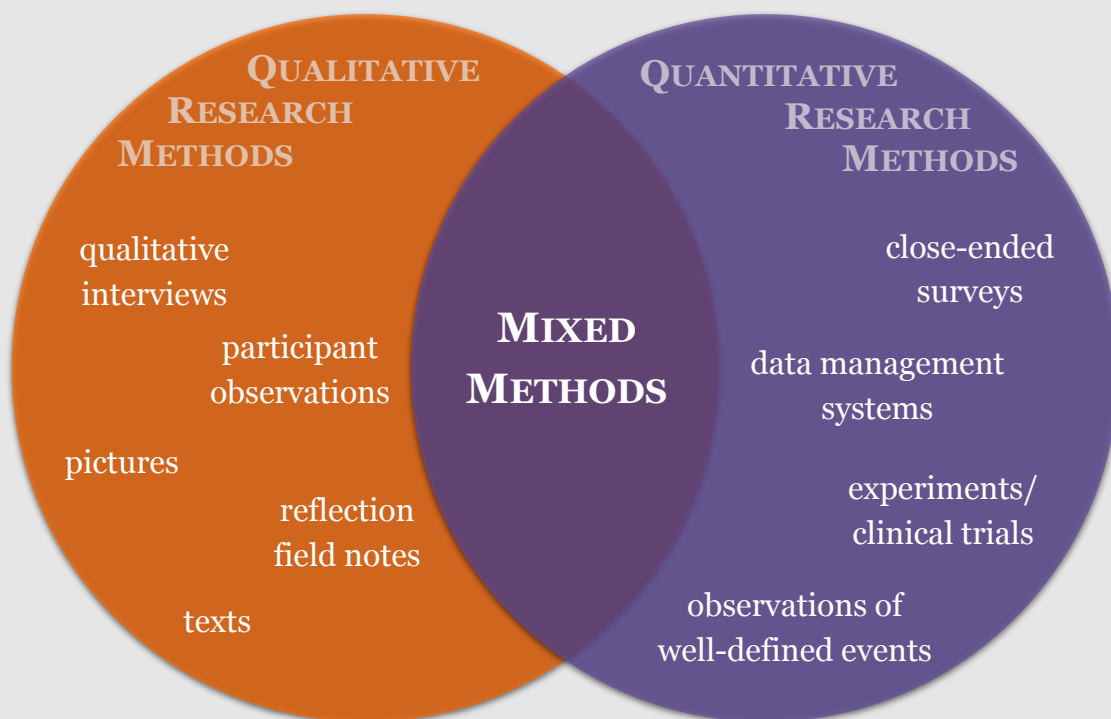

ASSISTANT PROFESSOR, DEPARTMENT OF POLITICS

***Research Design Strategies**

***Data Collection Procedures**

***Techniques for Analysis & Inference**

The UCSC Center for Statistical Analysis in the Social Sciences offers this Mixed Methods Workshop with Professor Lamis Abdelaaty. Mixed methods research integrates quantitative and qualitative approaches in order to combine their strengths and overcome their respective weaknesses. This short course provides a general overview of mixed methods research, including a survey of research design strategies, data collection procedures, and techniques for analysis and inference. Participants are encouraged to bring ideas (however preliminary) for their own mixed methods projects.

Date & Time: May 12, 2:00-5:00 PM

Location: College 8, Room 252

**CENTER FOR STATISTICAL ANALYSIS
IN THE SOCIAL SCIENCES**
